

IAU Commission 46 (Astronomy Education and Development)

National Liaisons

Each National Liaison is expected to

- write a Triennial Report on astronomy education and development in your country (next report due Easter 2011, in time for the 2012 IAU General Assembly)
- publicise/distribute the Newsletter in your country (available at <http://physics.open.ac.uk/~bwjones/IAU46>)
- contribute to the Newsletter (between Triennial Reports)
- take initiatives e.g. alert those in the "Cc" list and me to educational events your country of widespread interest
- communicate and promote the work of C46 in your country
- encourage C46 membership among your education-interested colleagues
- help establish (if not already established) a national website for astronomy education in your country.

You are encouraged to take any other initiatives that seem appropriate to you.
